

## SCCT Summer Camps | May 28 – August 22, 2024

On sale March 13<sup>th</sup> at [scchildrenstheatre.org](http://scchildrenstheatre.org)

### Activity Based Camp:

In our Activity-Based Camps, children dive into the world of theatre through high-energy activities and games. The focus here is on exploration and enjoyment rather than the pressure of perfecting performances. Through improvisation, character development, and exploring dramatic interpretations, kids develop a range of skills, including communication, creativity, empathy, and problem-solving. The camp fosters a supportive environment where children can express themselves freely and engage in purposeful physical expression. Teachers capture memorable moments on video to create a keepsake for parents, but the primary goal is to keep children engaged and having fun.

### Performance Based Camp:

Our Performance-Based Camps offer children the opportunity to experience the thrill of preparing for a live performance. While still engaging in theatre games and activities, the focus is on honing skills for polished performances. Children build confidence, discipline, and focus through character development, staging scenes, and regular rehearsals. They learn the importance of commitment and hard work in achieving their goals. Although the emphasis is on preparing for a performance, the camp maintains a supportive atmosphere, allowing flexibility for young performers who may have challenging days. Parents receive recordings of the performance to share with friends and family, capturing the culmination of their child's hard work and dedication.

### Required for all camps:

- Comfortable clothing that allows for movement
- Shoes that stay on feet and cover toes
- Water bottle labeled with student's name

Perhaps it is becoming a character and discovering their world? Try on each hat- playwright, director and actor- and see which one is the best fit for you. You won't know until you try! If your child is "not an actor," we can accommodate him/her in this camp and they can focus on the non-performance elements for the production while still gaining social and collaborative skills.*
